## Projects

---

### New Tab Page

 [github.com/NeilBrommer/NewTabPage](https://github.com/NeilBrommer/NewTabPage)

 [start.neilbrommer.com](http://start.neilbrommer.com)

A web page intended for use as a browser's new tab page, keeping groups of links with all data stored client side. This project is being used as a way to learn about JavaScript's more advanced capabilities.

### Picture Viewer

 [github.com/NeilBrommer/PictureViewer](https://github.com/NeilBrommer/PictureViewer)

A small C# and WPF Windows application for opening and viewing image files. It includes small extra features such as a slideshow function, a queue sidebar, and drag and drop support.

## Work History

---

### Spokane Valley Summer Theatre

*Spotlight Operator, The Secret Garden*  
 svsummertheatre.com
